

WC122 : Cell Broadcast Interface

Terms of Reference

The **WC122 : Cell Broadcast Interface** Working Committee has been established to perform an area of work identified by the Network Reference Panel (NRP). This Committee in carrying out the specific terms below is to observe the following guidelines, as appropriate:

Specifically the Working Committee is to develop a new Guideline that:

- Specifies an interface between a:
 - Cell Broadcast Entity (CBE) e.g. an application used by the National Emergency Management Agency (NEMA); and
 - Cell Broadcast Centre (CBC) e.g. a function operated by a Mobile Network Operator.
- Specifies recommendations or requirements for the testing of this interface for delivering a Cell Broadcast Message (CBM).
- Is consistent with work between the National Emergency Management Agency (NEMA) and Mobile Network Operators (MNOs).
- Maintains alignment with any relevant international specifications.
- Maintains consistency with the format of the current Communications Alliance template.

The Working Committee is not to:

- Give detailed guidance on calls to emergency service numbers.

Primary deliverables

- A new G6nn:2024 **Cell Broadcast Interface** Industry Guideline.
